

AUCTION CATALOGUE FOR AUGUST 8th AUCTION AT CHANDLER'S FORD								
ITEMS FROM MR COOKE'S COLLECTION								
This collection has become available recently. Most of it was put together by Mr Cooke's grandfather in Malaya in the 1940's and 1950's. The quality is not brilliant as it was stored for a while in poor conditions in India so some stamps are foxed and some have discoloured gum, but this is reflected in the reserve. The collection covers most of the world from the beginning up to the early 1930's, with a small number of later items.

The following eight lots comprise Schaubek early 1930s preprinted albums for Europe and Australasia, made especially for the original owner, so would have been expensive at the time. They are the German version, so set out alphabetically but in German spelling for the country. Thus Austria is under "O" for Osterreich, so be aware countries are not necessarily where you would expect them! Condition is variable, some foxing here and there because of the storage in India. Some countries better represented than others, but still some interesting items.
